INTRODUCTION

Fall 2023

Dear Coach,

The Section VIII Girls' Soccer Handbook is a resource for coaches. The handbook contains vital information that will guide you throughout the season. You will find rules, regulations, and important dates including play off information. Please take the time to read the handbook thoroughly. Feel free to contact me if you have any questions or concerns.

Once again, let each of us represent our school, communities, and county with the highest level of integrity and character. Compete with dignity and class while maintaining the utmost level of respect for our opponents. Let good sportsmanship prevail at all times.

On behalf of the Girls' Soccer Committee, I wish you the very best this upcoming season and look forward to being a part of the many successes both on and off the field regarding Girls' Soccer in Nassau County.

"I am a member of a team, and I rely on the team, I defer to it and sacrifice for it, because the team, not the individual, is the ultimate champion"

- ***Mia Hamm***

1. **Sports Committee-** will meet on October 20 at 6pm prior to the coaches meeting to determine seeds and placement for the playoffs.
2. **Withdrawal-** If a school withdraws after the tournament bracket is finalized or while the tournament is in progress, the opposing team will receive a BYE and automatically advance to the next round of play. It is advised that a coach does not take his or her team out of the tournament without prior approval of his/her Athletic Director.
3. **Site-** All preliminary qualifiers and quarterfinal games are to be played at the higher seed. If this site is unavailable, the sports committee will provide a suitable site. The opponent's field is an option.
4. **Game Balls-** All playoff games ***MUST*** be played with the Spalding TF 5000.
5. **Ball Personnel-** Each school should make a provision to have ball people to assist with the movement of the game. Their service must be provided for the entire contest. Both coaches must agree to any variation.
6. **Scorers-**Each team should provide a scorer, preferably an adult.
7. **Supervision-** Each school is to provide at least three (3) adults, paid by that school, who will report to the scorer's table and the sports committee before the game. These supervisors MUST wear some type of clothing identifying themselves.
8. **Team Area-** Each team will be issued a maximum of five (5) sideline passes for the semifinal and final game of the tournament. These passes are for the coach, athletic trainer, administration, etc. NO ONE WILL BE PERMITTED NEAR THE TEAM BENCH WITHOUT A SIDELINE PASS. The HOME team will occupy the bench to the right of the scorer's table as you face the field.
9. **Procedure for Breaking a Tie-** In case of ties at the end of regulation time, there will be two (2) 15 minute overtime sudden victory periods. An official game ends at the end of these two overtime periods. If the score is still tied, the teams will go to penalty shots.
10. **If the regulation game is not played in its entirety, in case of a tie, the entire game must be played over.** Sudden victory and penalty shots will resume at the point that they were ended.
11. **PENALTY SHOTS:**
 - a. The winner of the coin toss will have the option to shoot first or second. This order will remain the same until a winner is determined.

- b. Each coach will submit a list of five (5) players and the order that they will shoot. These players can be anyone on the team including the goalie. Disqualified players cannot be used. This group goes to completion or until a winner is determined.
- c. If still tied, after the first group of shooters, five different players will be submitted and a sudden victory situation exists after each pair of shooters.
- d. If still tied, after the second group of shooters, any list of five players will be submitted and a sudden victory situation exists after each pair of shooters. These players may come from the first two groups. This step is continued until a winner is determined.

12. **LATE START-** The home team must wait 30 minutes from the scheduled start of the game for the visiting team to arrive. (Schools should use discretion when waiting for teams to arrive. The game will NOT be forfeited and will be made up at another date.

13. **Inclement Weather-** Prior to playing at a neutral site, the site director will contact the participating schools to reach a decision. The home team (host) will notify the officials when the game is called off. When using a neutral site, the section coordinator will contact the participating schools. In the early rounds it is possible that only part of a bracket will be played. As per the Section VIII Policy, if lightning is observed, activity will be suspended immediately. Shelter should be sought in appropriate locations. Before resuming the contest, officials should wait a minimum of 30 minutes after the last observable lightning strike.

14. **Suspension/Termination of Games-** Once a game has begun, it is the responsibility of the game officials to determine whether a site is suitable for play or not. Game officials should consult with participating coaches and the site chairperson before making their decision. IT IS SOLELY THE RESPONSIBILITY OF THE GAME OFFICIALS TO MAKE THE DECISION! The safety of the participants is the FIRST PRIORITY when making a decision. If a game is suspended during the first half and is not able to be resumed that day, it must be replayed in its entirety from the start. If a game is suspended during the second half, it shall be restarted from the point of suspension (including overtime and tie-breaking procedures). In the regular season if a game is suspended/terminated due to weather the game is continued the next day (available day) from the time the game was declared unplayable. The top ranked officials who qualify for the current season will be placed on the officials' sheet for coaches to rank. Each coach will rank the officials' 1-12 along with their "non-preferred list" of officials which will consist of up to only 3 names.

The **Concussion Management and Awareness Act** will go into effect on July 1, 2012 for all public schools and charter schools. The items listed below are required for school districts to be in compliance with the law. Some of the items are specifically spelled out in the law and others have been recommended by the State Education Department and the Department of Health and approved by the State Board of Regents.

Requirements of School Districts

Education:

Each school coach, physical education teacher, nurse, and athletic trainer will have to complete an approved course on concussion management on a biennial basis, starting with the 2012-2013 school year.

- School coaches and physical education teachers must complete the CDC course. (www.cdc.gov/concussion/HeadsUp/online_training.html)
- School nurses and certified athletic trainers must complete the concussion course. (<http://preventingconcussions.org>)

Information:

Provide concussion management information and sign off with any parental permission form.

The NYSPHSAA will provide a pamphlet to member schools on the concussion management information for parents.

The concussion management and awareness information on the State Education Department's website must be made available on the school website, if one exists.

Removal from athletics:

Require the immediate removal from athletic activities of any pupil that has or is believed to have sustained a mild traumatic brain injury.

No pupils will be allowed to resume athletic activity until they have been symptom free for 24 hours and have been evaluated by and received written and signed authorization from a licensed physician. For interscholastic athletics, clearance must come from the school medical director.

- Such authorization must be kept in the pupil's permanent health record.
- Schools shall follow directives issued by the pupil's treating physician.

State Education Department's Guidance for Concussion Management

Schools are advised to develop a written concussion management policy. A sample policy is available on the NYSPHSAA website at www.nysphsaa.org. The policy should include:

- A commitment to reduce the risk of head injuries.
- A procedure and treatment plan developed by the district medical director.
- A procedure to ensure proper education for school nurses, certified athletic trainers, physical education teachers, and coaches.
- A procedure for a coordinated communication plan among appropriate staff.
- A procedure for periodic review of the concussion management program.

Post Concussion Management

- **Cognitive rest** requires the student to avoid participation in, or exposure to, activities that require concentration or mental stimulation.
- **Physical rest** includes getting adequate sleep, taking frequent rest periods, and avoiding physical activity that requires exertion.
- **Return to school activities** may begin once a medical provider clears the student and may recommend a graduated return to activities, after the student has been symptom free for 24 hours. For physical activities, please refer to Zurich Guidelines which can be found at www.nysphsaa.org.

Schools may develop a **Concussion Management Team** to help guide and implement the program.

- The team may include, but is not limited to, students, parents/guardians, school administrators, medical director, private medical provider, school nurse, director of PE, certified athletic trainer, physical education teachers, coaches, and regular education teachers.

SECTION VIII OUT OF SPORTS SEASON ATHLETIC PARTICIPATION POLICY

In order to protect all eligible student-athletes from exploitation and coercion, the following principles should be adhered to:

- We, all member districts, do not limit individual students' opportunities to participate in other sports and athletic experiences.
- We do not exert pressure on student athletes to participate in an athletic activity outside of any sport season (as defined by the Section).
- We support and preserve the integrity of each interscholastic sports program by enforcing these principles.
- We ensure that the spirit and intent of this policy be understood and adhered to by all members of the Section.

To that end, the following guidelines will be in force replacing the former "Camp and Recreation Rule":

- Section VIII members will conduct programs which are recreational in nature as defined by this regulation. Intramurals, strength and conditioning programs, and recreation programs which are **open to all students** are permitted.
- During any approved activity **individual sport skills** may be taught to students.
- The same opportunity for instruction and personal improvement must be available to all students participating in the activity.
- **Team strategy and roster specific workouts limited to members of an athletic team are prohibited.**
- Recreational activities must be open and publicized to all eligible bona fide students.

During the summer, Section VIII members may conduct leagues, camps, clinics, and similar activities at their facilities. Members shall observe the starting and ending dates of each sports season as set by the Section annually.

-It is also the spirit of this rule that we encourage, enable, and permit athletes to participate in more than one sport during the course of the year. Students should not be coerced to participate in other activities organized during a specified sports season to maintain good standing in an out of season sport. It is the responsibility of the local athletic administrator to regulate, monitor, and require compliance with the tenets of this rule for it to be effectively observed. All who are concerned with the proper conduct and with the intent and spirit of any interscholastic sport are obligated to report any violation or perceived violation to the Ethics Committee through the Executive Director's office. All violations will be adjudicated by the Ethics Committee which could result in forfeiture of eligibility and/or sanctions of the students, teams, coaches, or schools involved.

It is recommended that this policy and standard be made available to all students, parents, coaches and other school personnel concerned with the conduct of our interscholastic programs.
